First you must visit the 'BTF Day Licence Desk'. If you have applied for a BTF Day Licence when entering, this will be issued to you at this point. If you did not apply for a BTF Day Licence, then you will be required to show your 2012 British Triathlon Federation Race Licence. If you are unable to do this, for any reason, then you will be required to purchase one for £5 before being allowed to register. There will be NO exceptions to this ruling. If you have a 2012 British Triathlon Federation Race Licence, please bring it with you. This is to stop people exchanging entries & ensures that all competitors are insured to compete in the event.

Continue forward and find the appropriate numbered table to collect your race envelope. This will contain 2 x race numbers and 1 x frame sticker. Please keep these safe, as they are required to allow entry into the transition area. Next collect your event shirt. Finally, collect your Timing Chip, when you collect your Timing Chip it will be checked to ensure your details are correctly stored. Do not lose your Timing Chip as you will need it to race.

Transition Area

The Transition Area will be situated on the Water Sports Complex Car Park and is a fully secured area for competitors only. This is where you will keep your bike during the swim and run sections. To get into the Transition Area you must show your race number at ALL times. You will also be asked to show both your race number & bike number when taking your bike out. This is for your security. The Transition Area will not close during the event, so please understand that if you are not racing that you will be asked to make a clear way for racing competitors.

The Team Event

Only one person is required to register for the whole team, but will be required to show ALL of the 2012 BTF Race Licences for those teams that have not paid for their Day Licence(s) when entering. All relay team tags will take place by the team's bike racking position, inside the transition area. The swimmer will finish their swim, exit through the fire doors and then run to tag their team cyclist inside the transition area. The cyclist's bike must stay racked until the swimmer has tagged the cyclist. When the team cyclist finishes, he/she must re-rack their bike before tagging the team runner. All tagging will take place by passing the Timing Chip to the next team member.

Friendly Race Briefing (10:15)

Electronic Timing

Providing fast and accurate results is the most critical part of any race. At One Step Beyond Timing we use the latest RFID based timing system. Each athlete is given a "chip" that generates a unique signal when it crosses through an antenna field. By using a database to assign each participant's personal information to each chip, timing software can easily calculate each participant's time and finish place.

To maximise the success of getting your time there are a few things required:

- a) Wear the chip!

- b) When attached to the strap wear it just above your LEFT ankle with the chip arrow pointing upwards. Our antenna fields will be positioned about this height, if you wear it anywhere else it may not be read.

When fitting your chip some people find it useful to smear a small amount of lubricant around that area to prevent any chaffing. We don't need you to run over bulky mats anymore and don't worry if you don't hear it make a noise. If you have run between the antenna and worn your chip correctly we will have a time for you.

Electronically capturing each finishers time allows us to continuously post preliminary provisional results on-site during the race in a number of ways.

At the moment these Triathlon chips are re-usable and as such need to be handed back at the finish of the race or before if you have to retire early.

You will incur a charge of £10 if you fail to hand it in.

Race Numbers

Race Numbers must be worn on back during the bike & the front during the run sections at all times. Numbers must be pinned at all four corners. Number bands are allowed but it is recommended that two be worn. One number band for the top of the number & one number band for the bottom to stop your number creasing up and becoming unreadable. NB. Please do not forget to bring safety pins.

The Course – 200 METRE SWIM – 10KM BIKE – 4KM RUN

The course design will be very simple and will allow for excellent viewing opportunities of this fun women's only tri!

Swim

The swim will be a basic square, which stays close to the side of the lake at all times, ensuring that the competitors feel comfortable with their position in the water. There will be numerous canoes in the lake to guide you and provide safety cover. If you get into difficulty, turn on your back and raise one arm; a canoe will then escort you to the bank. All competitors please note: United Kingdom inland waters are not completely safe for swimming, although risks of disease are low and risks of serious infection are minute. A swimmer may be susceptible to infection through immune suppression, particularly if he or she is not in good health at the time of swimming. You are advised not to drink the lake water. If you are unwell, please do not take part in the event.

Bike

Please note the path surface is a mix of tarmac and sandstone.

From the swim, you will exit directly into the transition area. It is important that you understand all of the entrance and exit points of the transition before you start. There are also specific points where you must mount and dismount your bike. An important rule that must be adhered to: "competitors are required to fasten their helmet before touching their cycle in the
