Electronic Timing

Providing fast and accurate results is the most critical part of any race. At One Step Beyond Timing we use the latest RFID based timing system. Each athlete is given a "chip" that generates a unique signal when it crosses through an antenna field. By using a database to assign each participant's personal information to each chip, timing software can easily calculate each participant's time and finish place.

To maximise the success of getting your time there are a few things required:

- Wear the chip!
- When attached to the strap wear it just above your LEFT ankle with the chip arrow pointing upwards. Our antenna fields will be positioned about this height, if you wear it anywhere else it may not be read.

When fitting your chip some people find it useful to smear a small amount of lubricant around that area to prevent any chaffing. We don't need you to run over bulky mats anymore and don't worry if you don't hear it make a noise. If you have run between the antenna and worn your chip correctly we will have a time for you.

PROVISIONAL RACE INFORMATION

ROTHER VALLEY CHILDREN'S TRIATHLON 2012 – START 09:00

ROTHER VALLEY COUNTRY PARK: SATURDAY 15TH SEPTEMBER 2012

Electronically capturing each finishers time allows us to continuously post preliminary provisional results on-site during the race in a number of ways.

At the moment these Triathlon chips are re-usable and as such need to be handed back at the finish of the race or before if you have to retire early.

You will incur a charge of £10 if you fail to hand it in.

The Course – 150 METRE SWIM – 4KM BIKE – 1.2KM RUN

The course design will be very simple and will allow for excellent viewing opportunities of this fun children's tri!

Swim

The swim will be a basic square, which stays close to the side of the lake at all times, ensuring that the competitors feel comfortable with their position in the water. There will be numerous canoes in the lake to guide you and provide safety cover. If you get into difficulty, turn on your back and raise one arm; a canoe will then escort you to the bank. All competitors please note: United Kingdom inland waters are not completely safe for swimming, although risks of disease are low and risks of serious infection are minute. A swimmer may be susceptible to infection through immune suppression, particularly if he or she is not in good health at the time of swimming. You are advised not to drink the lake water. If you are unwell, please do not take part in the event.

Bike

Please note the path surface is a mix of tarmac and sandstone.

From the swim, you will exit directly into the transition area. It is important that you understand all of the entrance and exit points of the transition before you start. There are also specific points where you must mount and dismount your bike. An important rule that must be adhered to: "competitors are required to fasten their helmet before touching their cycle in the transition area". The cycle route is very easy to follow it is simply 1 X 4KM laps on the pathway which circles around the larger lake in an anti-clockwise direction.

Run

On leaving the transition area, follow the race marshal's directions guiding you in the opposite direction to the bike course. The route is a simple out and back, you will head off for 600 metres before doing a u-turn and heading back towards the finish area. The finish is a filter onto a grassed area where you will have a 50 metre dash under the finish gantry.

Race Numbers

A Race Number must be worn on the back the bike & the front during the run sections at all times. Your number must be pinned at all four corners. Number bands are allowed but it is recommended that two be worn. One number band for the top of the number & one number band for the bottom to stop your number creasing up and becoming unreadable. NB. Please do not forget to bring safety pins.

Medical Cover

The safety of our competitors is paramount, especially the little ones! Onsite during the event will be Immediate Care Medical, a specialist company set up to supply the highest calibre of comprehensive medical cover to sporting events such as this. On the day there will be a team of Medics and Paramedics and Emergency ambulances equipped to NHS standard, with manual defibrillator / cardiac monitors, ventilators, and pulse oximetry. If before, during or after the event you feel that you require any type of medical care, please do not hesitate to contact an event marshal.

Medical Conditions

We request that all parents / guardians write their name & contact details on the back of the children's race numbers using a waterproof pen. If they have any type of medical condition or are taking any type of medication please write a large 'MC' on the bottom left of their race number. Please write their medical condition fully on the back of their number also. This will only be used in the event of them being involved in an accident.
